

**EXP NO: 3****SETTING UP EPICS, FEATURES, AND USER STORIES FOR PROJECT PLANNING****Aim:**

To learn about how to create epics, user story, features, backlogs for your assigned project.

**Create Epic, Features, User Stories, Task****1.Fill in Epics**

## 2.Fill in Features

The screenshot shows the Azure DevOps web interface. The browser tabs include 'You are signed in', 'Azure Portal | Mic...', 'Azure DevOps - M...', 'My Information', 'Energy Consump...', 'Settings - Overvie...', and 'Ask Gemini'. The address bar shows the URL: `dev.azure.com/gopikav/Energy%20Consumption%20Forecasting%20for%20Smart%20Building/_backlogs/backlog/Energy%20Consumption%20Forecasting%20for%20Smart%20Building/15`. The page title is 'FEATURE 15\*'. The work item is titled '15 visualization & monitoring' and is in the 'New' state. The area is 'Energy Consumption Forecasting for Smart Building' and the iteration is 'Energy Consumption Forecasting for Smart Building/Iteration 1'. The description field contains the text: 'system to monitor and predict energy consumption in smart buildings'. The right sidebar shows the 'Planning' section with fields for Priority (2), Risk, Effort, Business Value, Time Criticality, Start Date, Target Date, and Related Work. The 'Deployment' section contains instructions on how to track releases and turn on deployment status reporting. The 'Development' section contains instructions on how to link an Azure Repos commit, pull request, or branch to see the status of your development.

## 3.Fill in User Story Details

The screenshot shows the Azure DevOps web interface. The browser tabs include 'You are signed in', 'You are signed in', 'Azure Portal | Mic...', 'Azure DevOps - M...', 'My Information', 'Energy Consump...', 'Settings - Overvie...', and 'Ask Gemini'. The address bar shows the URL: `dev.azure.com/gopikav/Energy%20Consumption%20Forecasting%20for%20Smart%20Building/_backlogs/backlog/Energy%20Consumption%20Forecasting%20for%20Smart%20Building/13`. The page title is 'USER STORY 13'. The work item is titled '13 Data Collection & Storage' and is in the 'New' state. The area is 'Energy Consumption Forecasting for Smart Building' and the iteration is 'Energy Consumption Forecasting for Smart Building/Iteration 1'. The description field contains the text: 'As a system, I want to collect energy consumption data from sensors, so that I can store it for analysis.' The right sidebar shows the 'Planning' section with fields for Story Points, Priority (2), Risk, Classification, Value area, and Business. The 'Deployment' section contains instructions on how to track releases and turn on deployment status reporting. The 'Development' section contains instructions on how to link an Azure Repos commit, pull request, or branch to see the status of your development.

**Result:**

Thus, the creation of epics, features, user story and task has been created successfully.
